Clowes objects to the policy HC4, as written because it is not justified, effective, not is it accordance with national policy The PPG states that Councils have the option to "set additional technical requirements exceeding the minimum standards required by Building Regulations in respect of access" where there is a justified need for this requirement (Reference ID: 56-002-20160519).

The PPG (Reference ID: 56-005-20150327 to 56-011-20150327) sets out the evidence necessary to justifying a policy requirement for optional standards which includes:

- the likely future need;
- the size, location, type and quality of dwellings needed;
- the accessibility and adaptability of the existing stock;
- variations in needs across different housing tenures: and
- viability.

Therefore, in order to be justified (NPPF paragraph 35), Policy HC4 should be supported by a detailed analysis of how the Council consider these criteria have been adequately addressed and evidenced.

This analysis, along with consideration of site specific factors should be the used as the rationale to ensure that prescribed standards in policy are not unachievable or unviable.

(Continue on a separate sheet /expand box if necessary)

6. Please set out the modification(s) you consider necessary to make the Local Plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified at 5 above. (Please note that non-compliance with the duty to co-operate is incapable of modification at examination). You will need to say why each modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.
