Submissions to the Preferred Option 2021

On Behalf of Messrs Appleby

We object to the preferred options for the following reasons

- The site as below at Upper Sneyd Road remains shown in the green belt
- The proposed development boundaries exclude this site
- There is no need to retain the subject site in the green belt to preserve the purposes of the green belt
- There are no proposed housing allocations at Essington Village itself which is an established settlement with facilities
- The expansion of Essington is a sustainable development option

We attach our previous comments on the suitability of the site for development
And the comments about the green belt boundary.
