Paragraph Policy Policies Map

(1) Legally compliant	Yes	<input checked="" type="checkbox"/>	No	<input type="checkbox"/>
(2) Sound	Yes	<input type="checkbox"/>	No	<input checked="" type="checkbox"/>

Please tick as appropriate

5. Please give details of why you consider the Local Plan is not legally compliant or is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.

If you wish to support the legal compliance or soundness of the Local Plan or its compliance with the duty to co-operate, please also use this box to set out your comments.

In general terms we support the settlement hierarchy and the recognition that growth should be located at the most accessible and sustainable locations. However, the approach to the distribution of development means that a number of sustainable locations are only planned to receive a minimal housing allocation. For example, of the 7 tier 3 villages, only two are subject to a new housing allocations.

Additional development should be directed to the villages in order to bolster their services and facilities. A number of the settlements have schools, shops and public houses that would actively benefit from additional households. They are sustainable in their own right and have local housing needs (both market and affordable) that are not being met by the plan.

(Continue on a separate sheet /expand box if necessary)

6. Please set out the modification(s) you consider necessary to make the Local Plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified at 5 above. (Please note that non-compliance with the duty to co-operate is incapable of modification at examination). You will need to say why each modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

As detailed in our representations, the housing requirement may need to be increased. Additional development should be directed towards the sustainable settlements, including the tier 1, 2 and 3 villages in order to ensure that the housing is directed towards sustainable locations to supporting existing services and facilities.

(Continue on a separate sheet /expand box if necessary)
