The Acton Hill site for 81 houses - 18/01031/OUT

I would very much appreciate it if consideration be given to the proposal to build on land at Acton Hill, Stafford be removed from the South Staffs Local Plan. The local infrastructure is already under pressure and I believe that development of this site with 81 houses would assist much larger developments later on.

If the area loses this Grade 3A farming land to housing we will never get it back and it is essential to keep as much of our good arable land as possible.
