Sustainability Appraisal

- For Site 283, the key determinant in the Sustainability Appraisal and Site Assessment is the potential for major negative impacts in relation to landscape criteria due to Green Belt harm.
- Following the trail of evidence this conclusion is reached solely based on the purported moderate-high levels of harm to the purposes of the Green Belt in the eastern extent of the Site (see representations in relation to the Green Belt). This is different to what is concluded for the western area of the Site, such that it is moderate harm (which evidence submitted with these representations suggest is an incorrect judgement) and different to the conclusion overall.
- It is not appropriate for the Green Belt Study to have been used as a criteria for the Sustainability Appraisal rather than the Landscape Sensitivity assessment only, which would conclude differently in relation to the assessment of Sites.

4. Section 2 of the Landscape Position Paper, accompanying these representations, considers this element of the SA to be flawed.
5. The SA should be amended to be consistent with the Housing Site Selection Topic Paper and vice versa.
6. The Green Belt Study results should not form part of the assessment criteria for landscape in the SA.

6. Please set out the modification(s) you consider necessary to make the Local Plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified at 5 above. (Please note that non-compliance with the duty to co-operate is incapable of modification at examination). You will need to say why each modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

The SA should be amended to be consistent with the Housing Site Selection Topic Paper and vice versa.

The Green Belt Study results should not form part of the assessment criteria for landscape in the SA.

(Continue on a separate sheet /expand box if necessary)

Please note: In your representation you should provide succinctly all the evidence and supporting information necessary to support your representation and your suggested modification(s). You should not assume that you will have a further opportunity to make submissions.

After this stage, further submissions may only be made if invited by the Inspector, based on the matters and issues he or she identifies for examination.

7. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?

No, I do not wish to participate in hearing session(s)

Yes, I wish to participate in hearing session(s)

Please note that while this will provide an initial indication of your wish to participate in hearing session(s), you may be asked at a later point to confirm your request to participate.

8. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary:

In order for the Inspector(s) to be able to appropriately consider the evidence presented by all parties before taking a view.

***Please note** the Inspector will determine the most appropriate procedure to adopt to hear those who have indicated that they wish to participate in hearing session(s). You may be asked to confirm your wish to participate when the Inspector has identified the matters and issues for examination.*
