

With regards to the above site, I would like to emphasise that I would like to see this site developed sympathetically taking into account it is a Brown field site in Green belt. Our immediate neighbours have all supported the idea of residential in the past, as they are obviously concerned about the future of the site should I just sell it. I would like to see a development that would benefit the local community as a whole.

I particularly favour the Green power route, or local employment, which would add to the infrastructure of the area.

As you can see from the form I am open to several possibilities, before my retirement.

kind regards

Paul Myatt
